The UndergroundBackups Security Guarantee protects you while you shop online. When purchasing from UndergroundBackups.com you never have to worry about credit card safety.

*We guarantee that every transaction you make at UndergroundBackups.com will be 100% safe. This means you pay nothing if unauthorized charges are made to your credit card as a result of shopping at UndergroundBackups.com See guarantee details below.*

Each and every online transaction and information transfer of a sensitive nature sent and received by our site is guaranteed to be secure. Powerful algorithms encrypt personal data before it is sent out over the Internet. The encryption methods used assure you that your computer and our server are the only two computers in the world that can decipher these coded messages.

Even in the extreme case of someone intercepting such an encrypted message, they would be unable to decipher it and therefore could not determine the coded information contained within. Encrypted Information sent over the Internet is extremely secure.....more so than most face-to-face credit card transactions!
